Shivamani Bartaula

Hi, I am Shivamani, a software engineer with 1 year of experience in frontend web development. I help businesses build digital solutions using Bootstrap, JavaScript (React.js), and Redux. I am passionate about building scalable products that are valuable to users.

Full-time working right up to April 2025 under a 485 Visa

EXPERIENCE

Software Engineer

AuTechJobs.com / Sydney / January, 2023 - Present

- Standardized theme development process which improved consistency and scalability.
- Increased code coverage from 80% to 84% using the javascript testing library and jest
- Devised onboarding workflow for new users with LinkedIn email, and themes that made the onboarding process take half the time than earlier.

Software Engineer

WoodongaUrbanLandcare.com / Melbourne / March, 2022 - October, 2022

- Developed and customized a WordPress website from scratch using DIVI for Wodonga Urban Landcare Melbourne as a major college project.
- Applied Agile scrum development methodology which enabled faster release of features and fixes.
